6: Generators

7: Yard Waste Facility

8: Swimming Pool

9: Miscellaneous

Water and wastewater report for July Meeting

- We are continuing to replace current meters with the new style meters, and we are hopeful to convert to radio read in the near future
- We would like to begin the repairs at the wastewater treatment plant beginning with the clarifier. We would like to start this work as soon as possible because we are having issues with the clarifier
- We would like to get approval for the purchase of 1 or possibly 2 kawasaki mules, or golf carts for the meter readers. This will save time especially in the inclement weather.
- We are continuing to set up the wastewater lab at the wastewater plant so we can get the temp lab moved out of the public works building
- We would still like to hire one additional employee for the wastewater
