John K. Allhands  
Mayor

*Recent legislation from the state of Illinois has required all water systems to document the materials of the small pipes that bring water to homes and businesses. The City of Watseka has been granted two separate rounds of funding from the Illinois Environmental Protection Agency for a total of \$80,000 to perform the required water service inventory. One of the first steps in the inventory is to send out a survey to all residents to get photos of your pipes. As the State requirement is to identify pipe materials on both public and private property, we really do appreciate your participation for two reasons- it helps save the taxpayers money by eliminating the need for Village staff to conduct inspections, and it preserves your privacy. So please help us out when you see a mailer or internet notice to take the photos. Thank you.*
